Thanks.

BTW--The Colorado Fish and Wildlife Conservation Office paragraph--shouldn't it be divided into two bulleted paragraphs?

#1

Colorado Fish and Wildlife Conservation Office has been monitoring the effects of the spill on terrestrial and aquatic wildlife since the incident began. CPW is watching for any impacts on wildlife, whether they are acute or chronic. Fish are especially sensitive to changes in water quality. CPW is also monitoring a control station on a clean tributary.

and #2?

The **Colorado Department of Public Health and the Environment** is assisting with drinking water concerns. They indicated they are optimistic that the effects of the spill on terrestrial wildlife will be minimal.

Hi, ok to add the word "Department" ??

It seems to be missing

on page <http://www2.epa.gov/goldkingmine/roles-epa-and-other-responders-after-2015-gold-king-mine-release>

(in red, below)

U.S. Agency for Toxic Substances and Disease Registry (ATSDR) – we are coordinating with ATSDR in response to public health concerns/questions associated with the mine waste plume. ATSDR has been in communication with local health officials at San Juan Basin Health DEPARTMENT in La Plata County (Durango) and the San Juan County Health Department in Silverton, Colorado. Public health questions/concerns should be directed to Chris Poulet, ATSDR/R8 at 303-312-7013.
